Claremont College is pleased to provide the following opportunities for parents and carers to be informed about and to be involved in their child’s education.

The School’s partnership with parents is greatly encouraged and valued, as we seek to nurture and care for your child. By working together we will enhance your child’s learning, build our school community, make our world a better place and especially support you in the most important and challenging job of all, that of being a mum or dad.

We hope that you are able to get on board by joining us throughout the year at these many exciting events.
